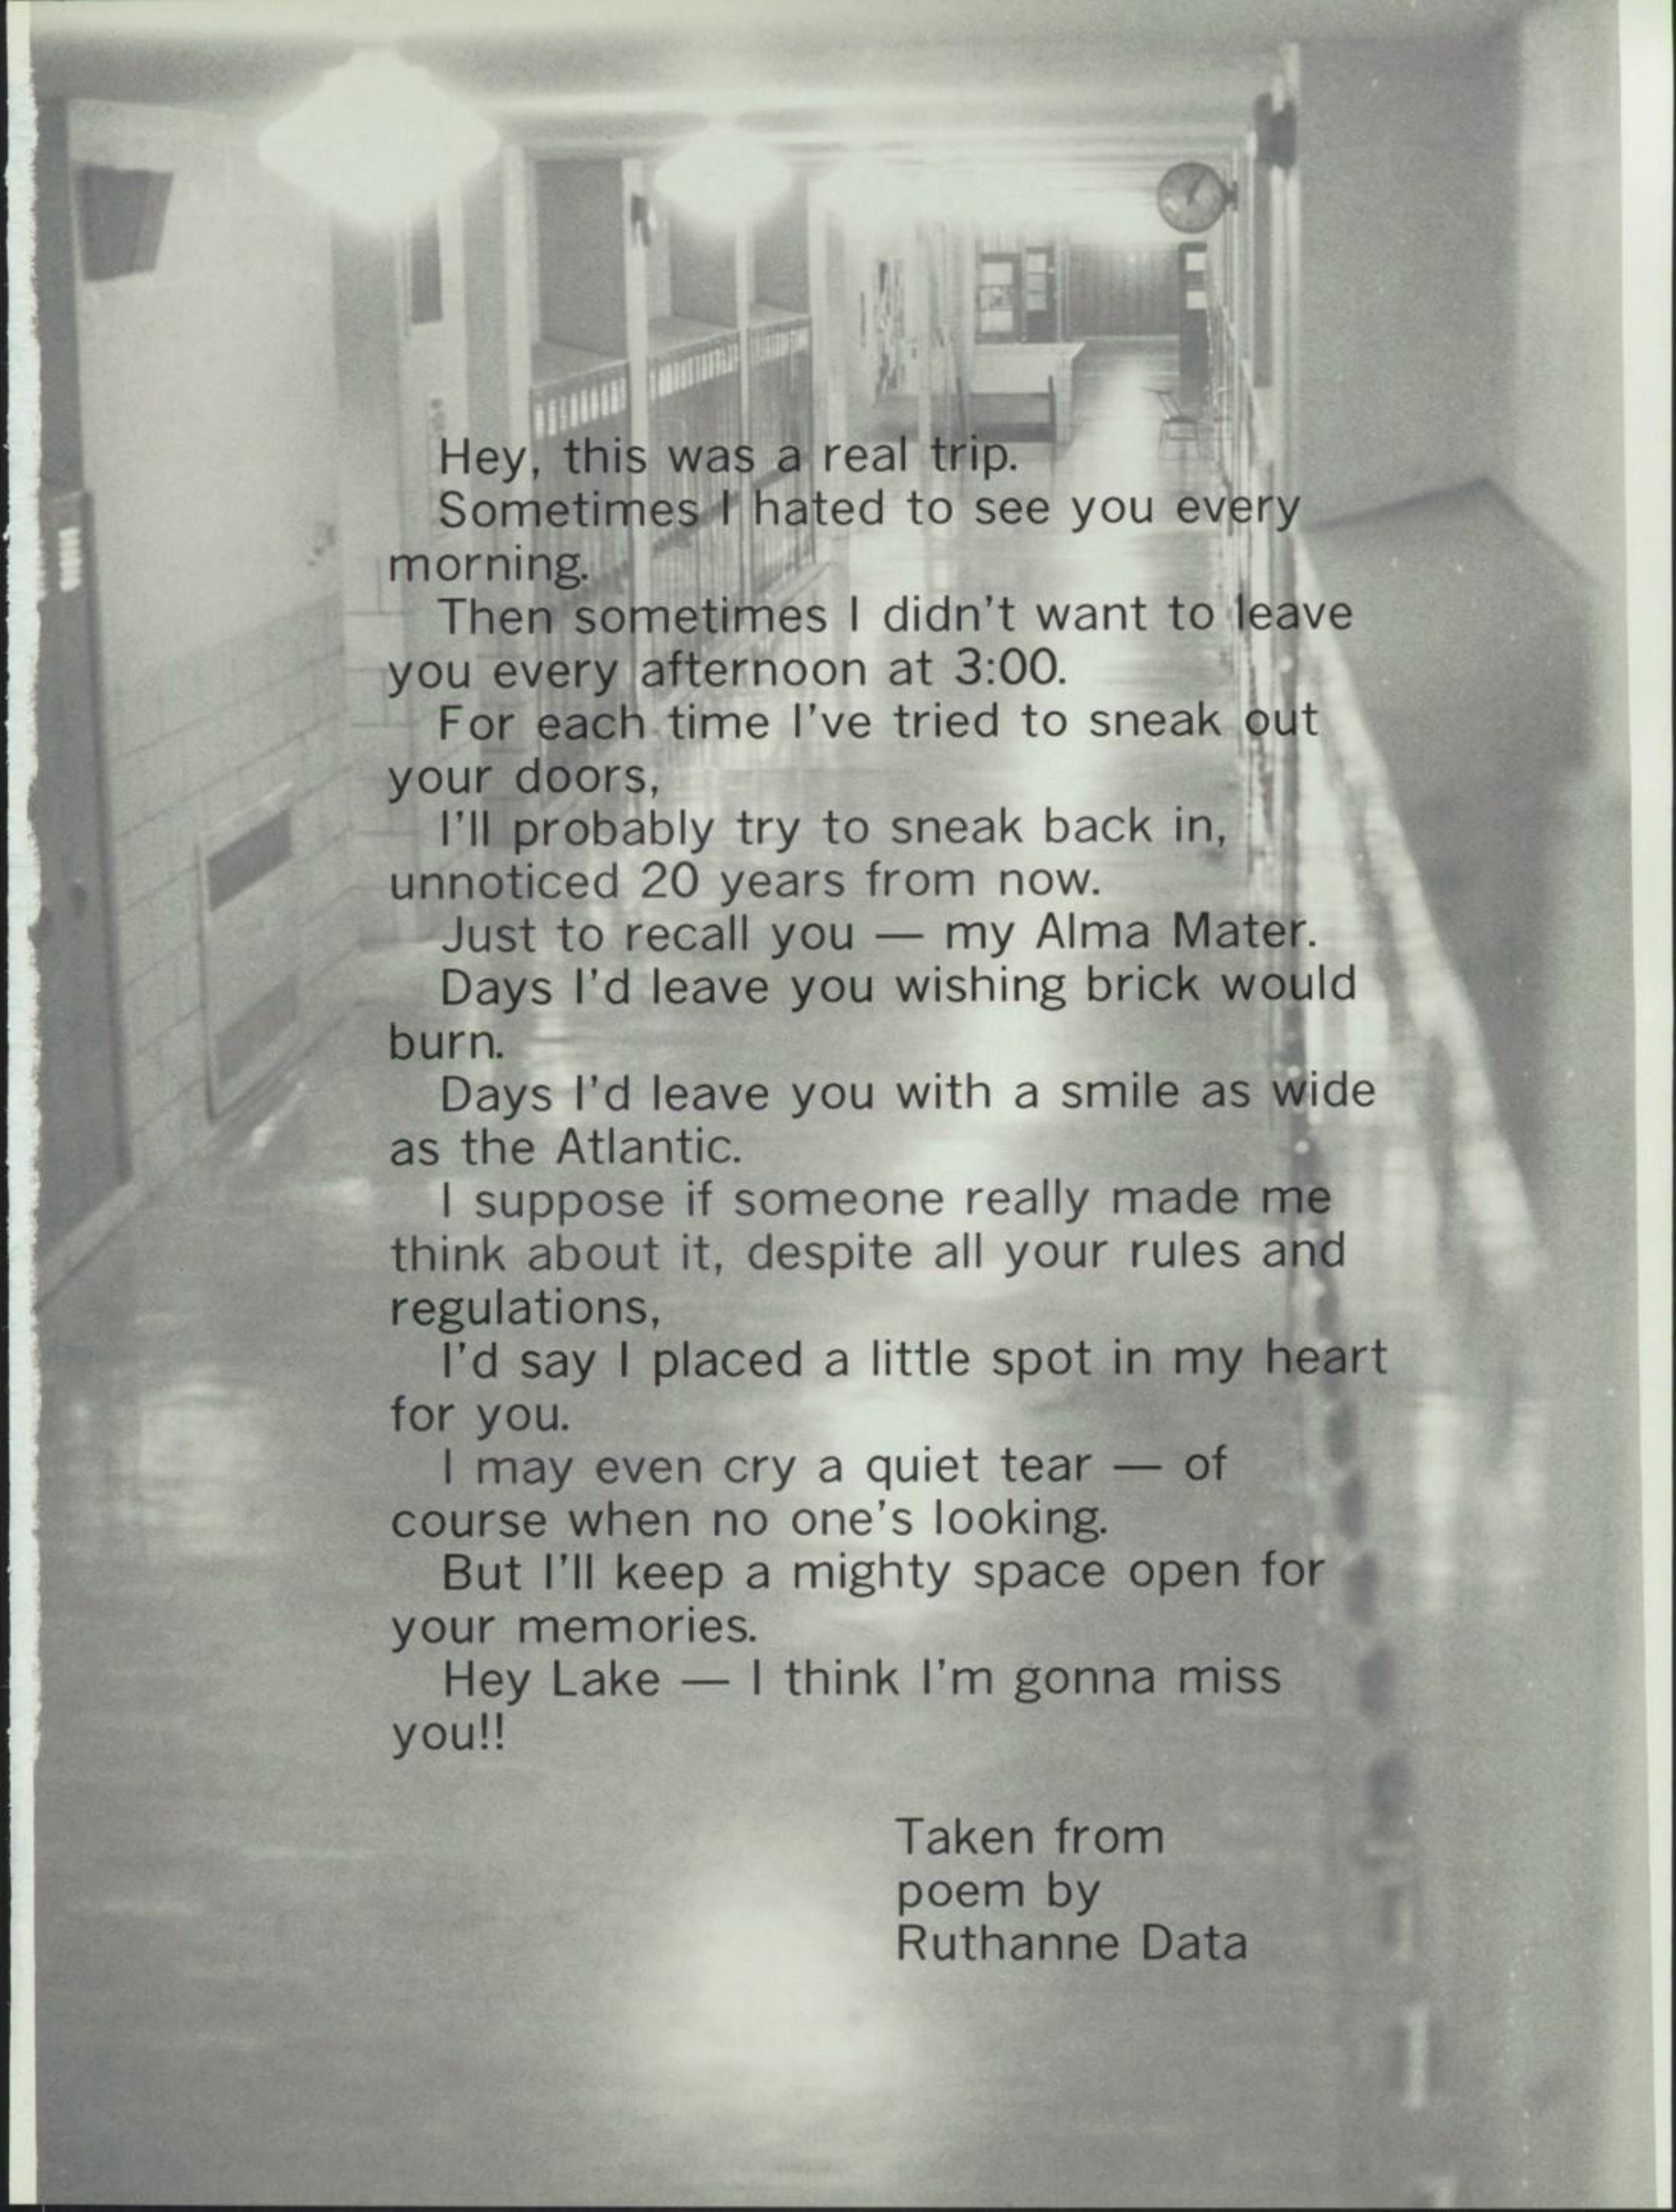
1978 Our Year

LAKE AURA



Hey, this was a real trip.

Sometimes I hated to see you every morning.

Then sometimes I didn't want to leave you every afternoon at 3:00.

For each time I've tried to sneak out your doors,

I'll probably try to sneak back in, unnoticed 20 years from now.

Just to recall you — my Alma Mater.

Days I'd leave you wishing brick would burn.

Days I'd leave you with a smile as wide as the Atlantic.

I suppose if someone really made me think about it, despite all your rules and regulations,

I'd say I placed a little spot in my heart for you.

I may even cry a quiet tear — of course when no one's looking.

But I'll keep a mighty space open for your memories.

Hey Lake — I think I'm gonna miss you!!

FROM SENIORS TO ALUMNI

On June 4, 1978 the 197 graduates marched into the stadium for the last time. The invocation was given by Rev. James Trainer. Rev. Howard Abts spoke to the class. Bill Rudolph, Valedictorian and Dan Eckermann, Salutatorion gave their class responses. After the diplomas were presented, the graduates lead the parents and guests in singing the Alma Mater. Rev. Trainer gave the Benediction. The class of 1978 departed as Alumni.

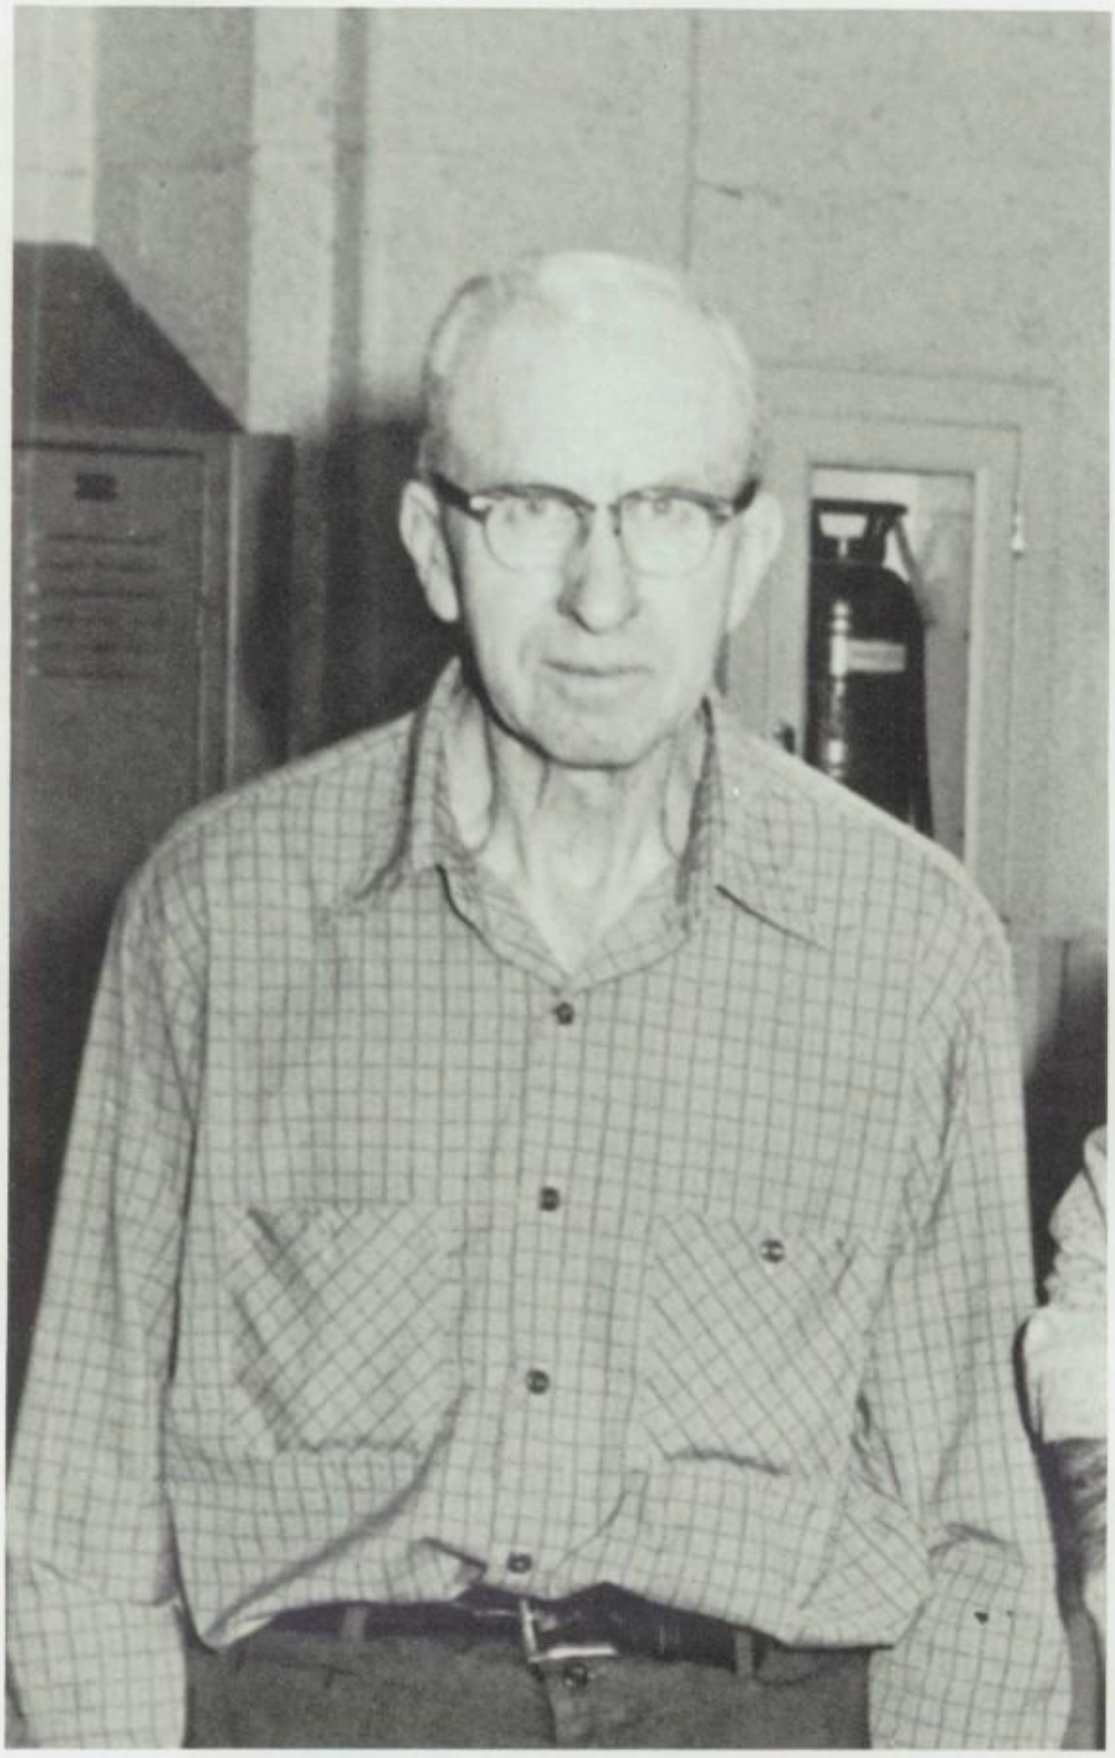
A SPECIAL PAGE FOR A SPECIAL PERSON



Does this face look familiar? This is one of the most common faces at Lake--One that is dear to us all. Here is our sweet Charlie.

Charlie may not be sweeping Lake's floors much longer, though. His retirement is pending approval by the state retirement board.

After he retires, he will definitely not be idle. His wife, who has retired from teaching after 32 years at Lake and Eastwood, and his three grandsons will occupy most of his time. Charlie also like to watch many types of sports on television.

When asked who he would miss most, he said the kids, teachers, and administration. Well Charlie, we will ALL miss you. We hope you enjoy your retirement. May God bless you, keep you safe, and provide richly for you. GOOD-BYE!

Looking toward the future . . .

As supplies of natural gas and oil continue to grow scarce, electricity will play an even larger role in meeting the expanding energy needs of our society. That's why Toledo Edison is developing new sources of energy, such as nuclear power, and planning ahead for the power needs of 1990 and beyond.

We're determined to meet this challenge and provide the best possible electric service for your generation and others that follow.
